

Timothy Barber Promoted to Vice President at EDC Moving Systems.

July 1, 2016

HOUSTON, TX - EDC Moving Systems announces the promotion of Timothy R. Barber to Vice President, reporting directly to the President, George Gilbert. In this position, Timothy will have direct responsibility for the management of the EDC Branches located in Austin, Dallas and Houston. Timothy brings 35 years of moving and storage experience to this job, 6 years of which have been with EDC Moving Systems.

Timothy (Tim) Barber has worked at every level of the moving industry. Tim began as a helper, working in the warehouse and on the truck. He has progressed through the ranks to become a General Manager and part owner of a moving and storage company. His vast experience and personal connection with all aspects of the moving business have created his passion for excellence.

Tim's moving career began when he was in college at Olivet Nazarene University. All of his summers were spent on a moving van as a helper until he transitioned into a driver position. After becoming a van operator for Atlas Van Lines, his hard work paid off as he was selected as the Van Line Driver/Operator of the Year in 1997 by the American Moving and Storage Association.

In 2002 he was contacted by DMS Moving Systems, an Atlas agent, to have part ownership to take over the management of their office in Birmingham. His perseverance paid off, as he took on the role of general manager and owner. In seven years he grew the business to over five million in annual revenue.

Over the past 30 years, Tim has also owned and operated several other successful businesses. Tim has been with the Atlas Family since the 80's with a few detours in between, all within the moving industry. Tim's high sense of self-discipline and organization skills has greatly benefited every organization.

In September of 2010, Tim Barber joined the EDC family leaving his longtime home in Vero Beach, Florida. He spent twenty years in South Alabama where he started his family. Tim and his wife Holly have settled in their new home in Houston where they have adopted four foster Children.

Because of his hard work and entrepreneurship, Tim immediately became an asset to EDC. Although he loved his home in Florida, Tim has become very fond of Texas and its pride already.

EDC Moving Systems has been servicing customers throughout the State of Texas for over 34 years, providing distribution service, household goods relocation, and warehousing and office relocation service. EDC is an agent for Atlas Van Lines.
